DETAILED ACTION

Note: This is in response to an amendment filed 12/24/2007.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-13 and 34 are rejected under 35 U.S.C. 102(e) as being anticipated by Greep et al. (U.S. 6,783,525).

Greep et al discloses substantially as claimed in figures 1 and 2E, a method that capable of removing a polyp from a surface comprises a polyp severing head (254) extending from a sheath (256) and capable of being retracted from the sheath (256); wherein the polyp severing head (254) having a conductive hook which for engaging the polyp and for discharging electrical energy into the engage polyp.

Response to Arguments

3. Applicant's arguments see remarks, filed 12/24/2007, with respect to the rejection(s) of claim(s) 1-13 under Stein et al. Pub. No. 2002/0165555 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Greep et al. (U.S. 6,783,525).
